October 8th, 2005

Quesnel has been my hometown for over 25 years and I have been actively involved in the community and business for most of that growth. After an in depth study in 2001 we determined that the community of Quesnel required qualified full service restoration contractor. In 2002 we made a commitment to invest in equipment and required training that would allow fair pricing and service.

After selling a competitive Kitchen Cabinet Business in Prince George in 2003 I have concentrated on assembling an efficient Restoration Company located at our Quesnel business office, warehouse and custom workshop.

Industry Involvement

During the past three years we have worked diligently to prove that we can work with Independent Adjusters, Insurance companies and with other restoration contractors. As the principal of the company, I would like to emphasize we are dedicated to providing quality restoration specialties with results at a fair price.

Many business and personal relationships have evolved from my personal contacts in the industry. We always keep an open mind and adapt to current requirements and changes.

Service and commitment is the foundation of our company.

Please call for more detailed information and a list of references.

Thank you.
